"Every child is an artist, problem is staying an artist when you grow up"
- Pablo Picasso

Art and Design heads unite for a week of creative exploration at Kutztown University of Pennsylvania!

Stay on campus, learn new skills, and get to know what it is like to be a college arts student. Experience the excitement of interacting with specialists from the art community.

An opportunity for new artists as well as experienced art students to explore a variety of mediums. Kutztown professional art faculty and alumni will offer insights into their art careers and job opportunities available to art graduates.

High school students entering grades 9 through 12 are invited to register. Students will participate in two classes each day, choosing an AM and a PM class in everything from interactive design to jewelry making.
